

To whom this may concern,

I have been listening to K-Love for about 2 years now, and I am simply amazed by how many people I have heard calling in, from Arkansas, on a National Broadcast! Besides myself, I hear, from the callers, that this is the only station they want to listen to. They feel it is the only station, they feel comfortable letting their children listen to, as well as the children love to listen! This station has made such a positive impact on our community, by ALWAYS being a positive station to listen to.

Before I found K-Love, I would listen to the other stations available. They were doing anything they could, just to get people to listen, regardless if what they did, or said, was harmful to anyone else. This does not only affect the individuals directly involved, but it sets the mind-frame for the countless others that are tuned in!

Please understand that I do not want to attack other stations, I just want to state a fact that radio stations have a strong impact of setting many standards for our society. K-Love is not different in this respect. They also set a standard, but it is very different than other stations. I know K-Love helps affect the way I encourage, help and continue to transition into becoming a better citizen for my community. This help comes from K-Love by the conversations they have, the things that they do on the show, and the music that they play.

K-Love continues to be a powerful, positive tool for encouragement in my life, and I do not want this strength in my life extinguished. Not for me, or the many in my state, or the many in other states, that depend on it.

Thank you for your consideration,

Jennifer Huie
